

Acoustics Today

Acoustics Today is a quarterly publication from the Acoustical Society of America and combines the importance and value of technical analysis with real-world applications and the community's need for books, standards and instrumentation. With a global audience, *Acoustics Today* penetrates the market for acoustics research, education, and engineering and reaches key buying influencers whose opinions and advice drive decision making for acoustical design, technology and services.

Coverage: Extends from basic research to practical applications and incorporates tutorials on topics such as signal processing, structural acoustics, and sound system design prepare readers for issues and challenges in hearing protection, noise mitigation, communication systems, architectural design, and underwater acoustics
