from the Acoustical Society Foundation Fund

I appreciate the opportunity to inform the membership and friends of the Acoustical Society of America (ASA) about the Acoustical Society Foundation Fund. The Fund derives from tax-deductible gifts and supports scholarships, grants, fellowships, and other special programs of the ASA. In future issues of *Acoustics Today*, I plan to feature each of these programs.

The William and Christine Hartmann Prize in Auditory Neuroscience was established in 2011 through a generous donation by Bill and Chris Hartmann to the ASA to recognize and honor research that links auditory physiology with auditory perception or behavior in humans or other animals. The Prize includes a cash award of \$4,000

and a travel stipend to attend the ASA meeting where the award will be presented. Cindy Moss of Johns Hopkins University, Baltimore, MD, is a recent Prize winner and writes, "It's not every day that you're awarded a prize for work you love. I was thrilled and honored to be recognized with the Hartmann Prize for my research linking auditory neurophysiology and perception in echolocating bats. I'm now on sabbatical in Hong Kong, where I took very few personal items with me, but I did bring along my Hartmann Medal."

James H. Miller
Chair, Acoustical Society Foundation Board
